MPV Series Electric Actuated Angle-Seat Valves

Motor valve for on/off- and modulating operation for neutral and aggressive media.

- Compact design
- Self calibration
- · Unaffected by lightly contaminated media
- For operating temperatures from -30°C up to +200°C
- Working pressure up to 40 bar
- Versatile actuator options
- Actuators with control function also available with spring return

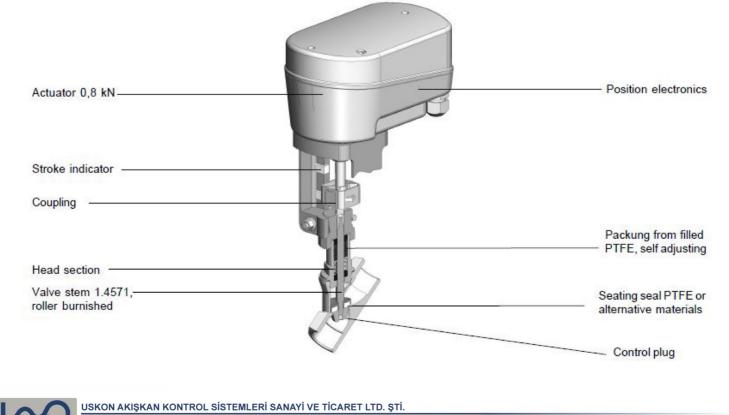

Technical Information

Body Material	AISI 316 SS						
Nominal Size	DN15DN50 1/2"2"						
Connections : Pipe thread NPT thread Welding ends Clamp Connections	1/2"2" 1/2"2" DN15DN50 DN15DN50						
Nominal Pressure	PN40						
Max.Fluid Temperature	-30°C 200°C						
Viscosity	max. 600 mm²/s (600 cSt)						
Vacuum	max. 0,001 bar,abs. / 0,015 psia						

Admissible Differential Pressures
